

Instructions and Informations

Flock

Art.: 500200

Usage:

As a colour additive in various FX products.
For use in a flocking stick ("skinner").

Product description:

Flock constitutes a mass of viscose fibre grinded to the length of 0,5 – 0,8 mm.
No negative occurrences observed when used in conjunction with our FX products.

Products suitable for the colouring with flock include: Cold Foam KI,
Silicone KI, Skin Elast KI, Skin Gel KI, Latexmilch KI, Pros Skin KI.

Safety Precautions:

Avoid contact with the eyes, ears, nose and mouth.
Do not inhale.
Do not swallow.
Flammable.
Keep away from children.

Processing:

From the 14 available colours, choose the required shade for your FX product, and mix well.

When creating an FX product using a material comprising of more than one component, flock should be added to that component holding the largest volume. Adding flock to the different layers of an FX product will create a particularly effective pigmentation.

All flock colours are intermixable.

weiß	beige	braunbeige	hellgrau	rehbraun	gelb	rosa
hellrot	kirschrot	bordeaux	grün	türkis	blau	schwarz
