

Information and Instructions

Glatzen Vinyl-Liquid

Art. No. 500101

Usage:

For the manufacture of bald caps.

Can also be used as a skin for our Skin Gel KI, soft.

Product description:

Material dries quickly.

Safety Precautions:

Irritating to the skin and respiratory organs.

Keep away from children.

Flammable.

Contains acetone.

Processing:

Manufacture of a bald cap:

Pour the material into an acetone-resistant glass or metal bowl and apply it to a Vaseline-released "red head" or plaster bald-cap former with an Air Brush or soft-bristled brush.

Powder the surface when dry before removing the caps from the head.

Tips and Tricks:

Can be pre-coloured with water based make up or Flock. Material should be diluted with acetone.

Seal the bald head former with Vaseline.

Spraying the Glatzen Vinyl Liquid with Air-Brush from a distance of 30 - 40 cm on the bald head, it will get a natural skin-similar surface. A dark and dry place is adequate for storing the caps.

Cleaning:

To clean the objects acetone is the best suitable.
