

## Information + Instructions

### **PROSTREN Ki** **Art.: 500030**

#### Usage:

To separate silicone from silicone, PROSSKIN KI, PROSMaster KI, latex and cold and warm foams.

#### Safety precautions:

Do not bring in contact with eyes or the insides of mouth, nose or ears.

Inflammable – keep out of the reach of children.

Protect from heat.

#### Procedure:

Apply thinly and evenly with brush or sponge. Must be blown-dry with cold air as separating agent is wax based and melts under heat ( making separation impossible ).

If **PROSTREN Ki** is too runny, place in the fridge for a short time.

#### Tips and tricks:

Due to its fine structure, **PROSTREN Ki** can be used universally. Finest structures can be achieved through thin application.

Heads, moulds and other pieces should be pre-treated with **PROSTREN Ki** before re-using.

#### Cleansing:

Washable parts and moulds can be cleaned with luke warm soapy water.

Our specialist Florian Schmidt-André will gladly provide further advice on usage at any time.
