

Information + Instructions

SPEZIALKLEBER Ki **Art.: 500013**

Usage:

For glueing **PROSMASER Ki**, **PROSSKIN Ki**, prosthetics, foams, eyelashes and "beards from the hand". Is of highest quality and purity. May be used directly on the skin.

Safety Precautions:

Do not bring in contact with eyes or the inside of mouth, nose or ears. Protect from frost and heat.

Procedure:

The adhesive **SPEZIALKLEBER Ki** is applied directly to the skin. To increase the adhesive strength **SPEZIALKLEBER Ki** can also be applied to the appliances being fitted. The appliance (e.g. made of **PROSMASER Ki**) is then fitted to the face. When absolutely necessary, it is possible to remove and re-fit the appliance as the adhesive forms a tacky layer between skin and appliance which doesn't completely dry out. The full adhesive strength of **SPEZIALKLEBER Ki** is reached after only a few seconds. The adhesive strength can be altered for your own requirements by thinning with water.

Tips and tricks - Part 1 - Glueing a "Beard from the hand."

Brush **SPEZIALKLEBER Ki** on the face as required, dry briefly with a hair-dryer and apply beard.

Tips and tricks - Part 2 - "Pax-effect"

Add silicone filler to the adhesive to create a paste which can be used for working on demarcation lines.

Cleansing:

Simply wash the skin with soapy warm water to remove any remaining adhesive. Cleaning lotion may also be used on sensitive areas.

Our adhesive remover **PROSSAR Ki** can be used to remove larger amounts of glue on skin, hair pieces or wigs.

Our specialist Florian Schmidt-André will gladly provide further advice on usage at any time.
